SECOND CALL FOR ABSTRACTS

for the 52nd SASAS Congress which will take place virtually from 10–12 August 2021 under the theme: “Communication of animal science: Is it reliable? Is it relevant? Is it responsible?”

The SASAS Northern Branch reminds all interested parties to submit an abstract of relevant research results for consideration as an oral or poster presentation. Due to popular demand, **the deadline has been extended to Monday 17 May 2021.**

Communication is key, and animal scientists should take this to heart when we discuss our business with other researchers, livestock producers, farmers, and the general public? Now, more than ever, scientists need to be involved in the public conversation to ensure that consumers are empowered to make informed decisions. This three-day congress will include excellent speakers from industry, academia, and the general public, so get ready for some lively debates. In addition, the online poster session will showcase the latest local research from various research and educational institutions.

Abstract guidelines

1. Abstracts must be submitted online at www.sasascongress.co.za.
2. Abstracts must adhere to the instructions to authors of the *South African Journal of Animal Science* (SAJAS) as published on www.sasas.co.za/instructions-to-authors/.
3. Abstracts may be submitted for oral or poster presentations, please indicate this preference clearly. The scientific committee will determine whether the abstract will be accepted for presentation, with consideration given to the author's preference. Authors may also indicate their preferred presentation language (between all 11 official languages of South Africa).
4. All submitted abstracts must contain novel data. Abstracts stating “data will be discussed in the presentation” will not be accepted.
5. Abstracts must be received by the announced deadline. Abstracts received after the deadline will not be considered.
6. Abstracts must be submitted in English, although authors may indicate their preferred presentation language. All abstracts should be submitted in clear English with accurate grammar and spelling of a quality suitable for publication. Please arrange for review of your abstract prior to submission.
7. Submission of an abstract acknowledges the author's acceptance for the abstract to be published in all official congress publications.
8. In order to be considered, an abstract should be submitted as a one-page document (maximum 500 words or 3 500 characters) with the following format.

TITLE

First author¹, Second author², and additional authors

¹First author affiliation and contact details, ²Second author affiliation and contact details, etc.

The five section headings should be labelled: 1. Background, 2. Aim and hypothesis, 3. Methodology & Treatments, 4. Results & Discussion (including summarised data and statistical analysis), and 5. Conclusion & Recommendations.

We look forward to starting the conversation with you!
